

PETITION

A NEW ICE RINK IN GENEVA IS IMPERATIVE!

The Vernets ice rink is outdated and no longer meets the standards required by the National League A (NLA) of the Swiss Ice Hockey League. Furthermore, the Geneva region lacks sufficient ice rinks to meet the needs of hockey players and ice skaters (for figure skaters and for leisure).

If Genève-Servette Hockey Club SA (GSHC) does not have a new rink by the 2018-19 season, the club will be relegated to the NLB!

The people of Geneva must react! All the other clubs in the NLA have rinks that meet Swiss National League standards, or at a minimum, have approved projects in place to build new arenas. Geneva is the only exception and the project for Trèfle-Blanc is not advancing!

With this petition, we ask the authorities of the City and Canton to re-launch the project for a new arena as soon as possible, and to make every effort to ensure that Geneva has a new rink by 2018-19 that can accommodate 10'000 spectators, while also addressing the need for additional ice rinks in the region.

To support our initiative, please complete the attached petition and return it directly to the club or by mail (GSHC, Chemin de la Gravière 4, CH-1227 Les Acacias, info@gshc.ch). We will forward the completed petitions to the State Council of the Canton of Geneva and the Administrative Council of the City of Geneva.

We thank you for your support!

We remind you that anyone can sign the petition, independent of their age, nationality and place of residence.

I hereby support the Genève-Servette Hockey Club's petition requesting that the Governments of the Canton and the City of Geneva urgently re-launch the project to construct a new arena that meets the requirements of the Swiss National League.
